HIPS Update

Sabrina Kerr
Senior PH Practitioner, HCC

Approaches taken

- Strong partnerships established with local authorities, Education, Public Health and ICB colleagues.

- Joint school recruitment led by partners, local authorities across HIPS, and UoM through calls, emails and school communications.

School Engagement Update

Another new three year cycle of #BeeWell survey started and 92 schools are taking part this year.

Type of School	Hampshire	IOW	Portsmouth	Southampton
Mainstream	53	6	5	5
Special	4	0	1	2
Alternative Provision	3	0	0	0
Pupil Referral Unit (PRU)	2	0	0	0
Independent - special	1	0	0	0
Independent - mainstream	2	0	1	1
Total number signed up	**65**	**6**	**7**	**8**
Percentage	**61%**	**55%**	**39%**	**40%**

Challenges

- Participation remained strong overall, although **14 schools that took part last year did not participate this year.**
- Schools face various demands on time and resources, including staff availability and IT capacity, which impacted taking part in the survey.
- Accurate school contacts
- Late sign-ups - potential for earlier engagement/ recruitment?
- Differences in Local Authority systems, differing approaches to obtaining pupil lists.

Potential solutions

- Start recruitment earlier and refresh the school contacts and leads list.

- Maintain all year round school engagement.

- Promote the Anna Freud Centre's 1:1 support for place-based data reviews to help local areas maximise the value and impact of their data.

Survey Questions 2026 Update

Summary of changes:

- Increased focus on **nutrition** and **food environments**, as a HIPS priority and to match with GM questions
- Increased detail on **substance use** (inc. nicotine), to improve local population monitoring in a key age group for prevention
- Increased focus on knowledge of **sexual health** and **consent** (for year 9+) to understand inequalities, links with wellbeing and inform support
- Increased focus on **period poverty** and **dysmenorrhoea**, to improve our understanding of gender inequalities and their impact on EWBMH
- More focus on the **overarching social influences** on EWBMH (e.g., trusted adults, hope for the future, a place to seek support) over recall of specific help-seeking behaviours – and to link with national Youth Strategy
